

# SDVis - Tackling the Data Explosion Challenge

Greater Insight

Saving Money

Faster Results

CPU-Based Solution

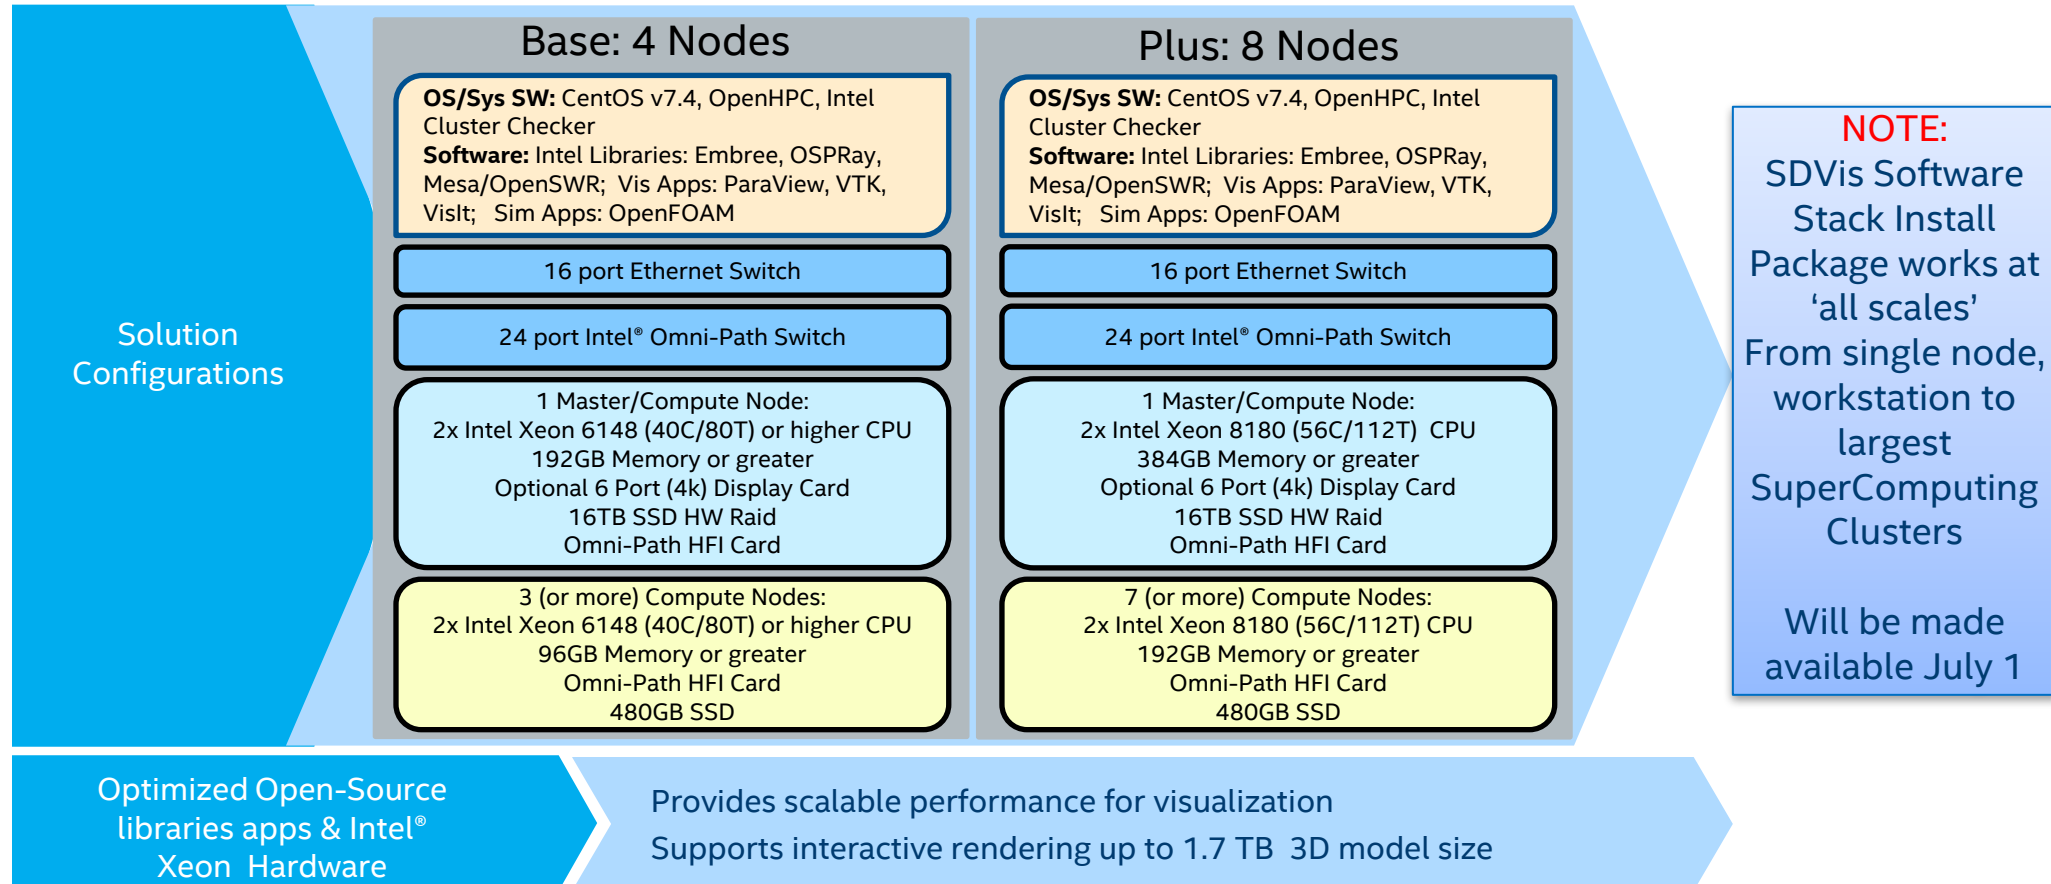

- Multi-cores
- Massive Memory
- No I/O constraints

Optimized Open Source Libraries & Software

# Intel® Select Solutions for Professional Visualization

Pre-configured solution for in-situ, post-processing, and professional rendering, providing cost effective, high fidelity, interactive visualization

# INTRODUCING THE INTEL SELECT SOLUTION FOR PROFESSIONAL VISUALIZATION

SOLUTIONS AVAILABLE IN 2018 FROM

UTILIZING SOFTWARE FROM

BENEFITING VISUALIZATION LEADERS INCLUDING

*"We are pleased to see Intel make it easier for HPC users to access high fidelity and large scale visualization through it's Intel Select Solution for Professional Visualization"*

Dr. Jim Lin  
Computational Science Manager  
HPC Team, BP North America, Inc.

*"We congratulate Intel on its launch of the Intel Select Solutions for Professional Visualization that can bring software defined visualization, including "in situ" visualization to more scientists and researchers."*

Dr. Paul Shellard  
Director  
Stephen Hawking  
Centre for Theoretical Cosmology

*"TACC applauds the release of Intel Select Solutions for Professional Visualization that enables the wide availability of high fidelity, interactive visualization for many more users"*

Dr. Dan Stanzione  
Executive Director  
Texas Advanced Computing Center

*"Bringing this capability into a turnkey hardware and software package in the Intel Select Solution for Professional Visualization gives TOTAL the opportunity to improve the analysis of simulation results more easily. We fully support this Intel initiative."*

Bruno Conche  
PITCSE R&D Visualization Project Leader  
Total
